JCM 111 Full-Repair Clamps

JCM 111 Full-Repair clamps are a fast economical means of permanently repairing steel pipe with extensive corrosion, splits, punctures or pin holes. These clamps have a heavy, full circumferential Buna-N gasket with a hardened recessed armor. This provides extra sealing capability for heavily damaged pipe and pipe with reduced diameter due to corrosion.

Steel Pipe Sizes - IPS
Copper Tubes Sizes - CTS

How to Order
1. Determine clamp size, material options and width required.
2. Order by clamp number.
   - For Stainless Steel Bolt(s) add (SS) to clamp number.
   - For ALL Stainless Steel Clamp add (AS) to clamp number.
Example: All Stainless Steel Clamp for 2" IPS PVC with 2.38 O.D. 3" with, order 111-0238-3AS

Material Specifications
JCM 110 PATCH CLAMPS and JCM 111 FULL-REPAIR CLAMPS
